

Name: Ineke Bolt
Function: assistant professor
Phone: +31 10 7043958
Email: i.bolt@uu.nl
Room: Na 21.15

Research subjects

- **medical ethics & philosophy of medicine, new biomedical technology (genetics, reproduction, enhancement), theories on well-being and autonomy**

Biography

Ineke Bolt is assistant professor at the Department of Medical Ethics and Philosophy of Medicine of the Erasmus Medical Center in Rotterdam. In addition, she is assistant professor at the Ethics Institute of Utrecht University. She received her PhD on a dissertation about the principle of autonomy in the context of genetic counseling. She has been a member of several ethics committees amongst others the Regional Review Committee for Termination of Life on Request and Assisted Suicide. Currently, she is a member of the National Committee on Preimplantation Genetic Diagnosis. Her research interests concern ethical issues in the field of bioethics, specifically ethics in genetics, human enhancement technologies and reproduction ethics.
