

Name: Eline Bunnik
Function: Post-doc researcher
Phone: +31107043062
Email: e.bunnik@erasmusmc.nl
Room: Na 21.19

Research subjects

Ethics of genetic testing, New technologies, Applied ethics, Prenatal screening

Biography

Eline studied Philosophy and Literature at the University of Amsterdam (UvA) (Bachelor Philosophy, *cum laude*) and completed a Research Master in Philosophy (*cum laude*) in 2005. In 2008 she completed the first year of Medicine (*propedeuse*), started a PhD-project at the Department of Medical Ethics and began teaching medical ethics courses at Erasmus MC. In June 2014 Eline defended her thesis 'Up close and personal: ethical issues in genomic testing'. At present she works as a post-doc researcher on a project on the ethical management of incidental findings in imaging in research.

Publication

Bunnik EM, Janssens ACJW, Schermer MHN
Personal utility in genomic testing: is there such a thing?
[Journal of Medical Ethics 2014](#) [Epub ahead of print] doi:10.1136/medethics-2014-102171
([more publications Eline Bunnik](#))
